Veterinarian Shortage Situation Nomination Form

To be completed by the State or Insular Area Animal Health Official

Veterinary Medicine Loan Repayment Program (VMLRP)

Nomination of Veterinarian Shortage Situations for the Veterinary Medicine Loan Repayment Program (VMLRP) Authorized Under the National Veterinary Medical Service Act (NVMSA)

Note: Please submit one separate nomination form for each position. See solicitation for number of nominations permitted for your state or insular area.

Location of Veterinary Shortage Area for this Nomination

Note: If this nomination is for a public practice position, please provide the location of the home office or the center of service area.

Location of Veterinary Shortage: Millard County, Utah
(e.g., County, State/Insular Area)

Center of Service Area or
Location of Position: 1115 E. Main Street, Delta, Utah 84624
(e.g., Address or Cross Street, Town/City, and Zip Code)

Type of Veterinary Practice Area/Discipline/Specialty

☐ Type I Shortage: Private Practice
Food Animal Medicine (at least 80 percent time)
Please select **one or more** specialties requested for this position:

- ☐ Beef Cattle
- ☐ Dairy Cattle
- ☐ Swine
- ☐ Poultry
- ☐ Small Ruminant
- ☐ Other : _____

☒ Type II Shortage: Private Practice – Rural Area
Food Animal Medicine (at least 30 percent time)
Please select **one or more** specialties requested for this position:

- ☒ Beef Cattle
- ☒ Dairy Cattle
- ☒ Swine
- ☒ Poultry
- ☒ Small Ruminant
- ☒ Other : Equine

☐ Type III Shortage: Public Practice (at least 49 percent time*)
Employer: _____ Position Title: _____
Please select **one or more** specialty/disciplinary areas.

- ☐ Food Safety
- ☐ Public Health
- ☐ Epidemiology
- ☐ Other: _____

Please describe the objectives of a veterinarian meeting this shortage situation as well as being located in the community, area, state/insular area, or position requested above (limit your response to 200 words or less).

1. Supplement an existing rural veterinary practice in Delta, Utah to serve the private practice needs of Delta County. Delta has experienced an influx of dairy practices over the past 10-15 years as many of these practices have left the Wasatch front due to increasing population.
2. Accreditation for the practicing veterinarian in order to address program disease needs of federal and state governments. As an example, tuberculosis and brucellosis program monitoring and testing.
3. Be able to perform antemortem and postmortem inspection of animals intended for human consumption at the small, federal and state inspected facilities in this county.
4. Act as a professional resource to the community regarding zoonotic diseases especially endemic to Southeastern Utah. (e.g., plague, hanta virus, Arizona rabies, hydatid disease)
5. Address the companion animal needs of the ranching and farming communities, along with those needs of the small, rural municipalities in the three counties in reference to their public health, rabies and pet over population mandates.

Please describe the activities of a veterinarian meeting this shortage situation and being located in the community, area, state/insular area, or position requested above (limit your response to 200 words or less).

We envision this veterinarian to come into practice with Dr. Ekins who currently works at Gunnison Bend Veterinary Services. This veterinarian would base their practice from this clinic. Because of the remote nature of this county, this practitioner would need to have a mobile clinic from which to practice from during farm and ranch calls. The fixed facility is capable of addressing emergency small and large animal needs.

Please describe any past efforts to recruit and retain a veterinarian in the shortage situation identified above (limit your response to 100 words or less).

Dr. Nelson, the previous owner of this practice had for many years tried to attract an associate into the practice. Because of the large dairy presence in this area, the dairymen are under served and are frequently pursuing methods of skirting the practice act so that they can perform procedures that veterinarians should be doing. The economy of Millard County is still based on farming and ranching. Any efforts to attract an additional veterinarian to this area have been unsuccessful because of the income needed to meet current student loan obligations of new graduates.

Please describe the risk of this veterinarian position not being secured or retained. Include the risk(s) to the production of a safe and wholesome food supply and to animal, human, and environmental health not only in the community but in the region, state/insular area, nation, and/or international community (limit your response to 250 words or less).

Because of the veterinary shortage in this area, many food animal related issues have become problematic. As an example, in order for cattle to be shipped properly between states, certificates of veterinary inspection are needed to accompany the cattle. Due to the shortage of veterinarians, this is often overlooked and has become a problem in this region.

Please indicate whether you consider this situation/position a candidate for a "service in emergency" agreement (limit your response to 100 words or less). Please see solicitations for additional information regarding the obligation of participants who enter into the "Service in Emergency" agreement. [LEAVE BLANK – NOT FOR IMPLEMENTATION IN 2010]

Authorized State or Insular Area Animal Health Official or designee:

Name: Bruce L. King, DVM
Title: State Veterinarian
Organization: Utah Department of Agriculture and Food
Email: bking@utah.gov
Telephone Number: (801) 538-7162
(Area code required)

Bruce L. King, DVM

Type Name

February 23, 2010

Date

Public reporting for OMB control number 0524-0046 is estimated to average two hours, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a current valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to NIFA, OEP, 800 9th St. SW, Washington, DC 20024, Attention Policy Section. Do not return the completed form to this address.
